

# DEBATE MATE LIMITED

---

Since September 2019, the business side of our social business has gone from strength to strength.

Beyond working directly with companies to enhance their own capabilities, we are continuing to pioneer our unique Boardroom to Classroom programmes which combines communication and leadership training for professionals with our work in schools.

Additional highlights include:

- Delivering our training with High Highness Sheikh Mohammed's Executive Office in Dubai
- Providing online communication and leadership training for community doctors in Basra, Iraq
- Broadening our fantastic relationship with Standard Chartered Bank to include colleagues in New York, Dubai and Frankfurt
- Working with a team of Senior Managers and Directors at Tesco Lotus at their Bangkok HQ
- Supporting Westminster Foundation for Democracy to empower youth politicians in Albania to use debating skills to enhance the political system in the country
- Supporting Diveln to promote diversity and inclusion across the insurance sector.

If you're interested in training for your team – online or in-person, hosting an engagement event with a difference, or skilling up your people, get in touch by emailing [info@debatebate.com](mailto:info@debatebate.com)!
